To whom it may concern:

It is my absolute pleasure to recommend Nicole and Chris Hargreaves for Christian ministry , especially in relation to the subject of Deliverance.

They have just completed 3 days of ministry with Barefoot Ministries Australia on the subject of Deliverance from evil spirits. They taught on this subject with great spiritual authority , using their knowledge of scriptures and life experience in dealing with enemy spirits .
They also provided opportunity for people in our congregation to obtain deliverance from demons (through both individual and corporate settings). This was well received by the congregation . They even engaged deliverance corporately and individually within a Sunday morning service, and many more gained freedom from demonic spirits . Also quite a number of the congregation assisted in this deliverance in casting out demons as they had been trained effectively by Nicole and Chris .A number gained physical healing as a result of the removal of evil spirits.

I personally have seen a number of ministries over the years engage in deliverance ministry , and found this teaching very sound theologically and up to date (addressing a number of current ills in our world ) , and amongst the very best i have encountered, and the practical applications administered (e.g. deliverances) were done well.

This ministry was done with great respect for people . This is can be a very misunderstood ministry, but Nicole and Chris conducted themselves in an exemplary way , to the people and the leadership at Barefoot Ministries Australia , Alice Springs.

Regards,

Stephen Lewin
